OBJECTIVE

Software Developer with experience in building scalable solutions, enhancing workflows, and applying analytical thinking to solve complex problems. Skilled in collaboration, communication, and delivering high-quality technical outcomes. Looking to contribute to a dynamic development team by creating efficient, user-focused applications and supporting long-term product growth.

SKILLS

Front-End Development: HTML, CSS, JavaScript, Bootstrap, TailwindCSS, React.js

Back-End Development: Express.js, MySQL, MongoDB (Mongoose)

Tools & Technologies: Git, VSCode

PROFESSIONAL EXPERIENCE

Front-End Developer, *Bluewebspark Technologies* 09/2024 – present
Worked on a live project as a Frontend Developer using the MERN stack (MongoDB, Express.js, React.js, Node.js). Collaborated with the development team to build responsive and dynamic user interfaces with React.js and Tailwind CSS. Integrated RESTful APIs, managed component states using React hooks and context, and optimized frontend performance. Contributed to real-time data rendering, user authentication, and admin dashboard features. Gained hands-on experience in deploying the application and resolving production-level bugs, enhancing both technical and collaborative skills in a real-world environment.

Front-End Developer Intern, *QuantaRock Systems PVT. LTD.* 01/2024 – 06/2024
Collaborative and results-driven Frontend Developer with a proven track record of understanding business needs and translating them into effective technical solutions. Skilled in optimizing workflows through API integration and crafting responsive designs across various platforms, resulting in a 15% improvement in system efficiency.

PROJECTS

Vendor Management System
- Built a complete-stack Vendor Management System to manage vendor onboarding, data tracking, and contract life cycle management with React.js, Node.js, Express.js, and MongoDB.
- Implemented streamlined CRUD operations for vendor profile management with add, update, delete, archive, and search functionality using optimized MongoDB queries.
- Streamlined contract and purchase order processes by incorporating dynamic forms and status-based tracking to enhance overall operational effectiveness and data accessibility.

Safety Management System
- Built a responsive Safety Management System using React, Express, and PostgreSQL from scratch.
- Developed dynamic safety forms with collapsible sections and real-time checklist controls.
- Integrated role-based authentication using JWT and bcrypt for secure access management.
- Designed scalable REST APIs and PostgreSQL schema with Sequelize ORM.
- Built **dynamic, collapsible safety inspection forms** with multiple checklist categories and real-time status toggles (Pass / Fail / N/A) for improved usability and structured data input.

EDUCATION

Master of Computer Applications, 2022 – 2024
Shri Govindram Seksaria Institute of Technology and Science, Indore
- 7.2 (CGPA)

Bachelor of Computer Applications, *Balkavi Bairagee Mahavidhyalaya, Neemuch* 2019 – 2022
- 77.73%

CERTIFICATES

- SQL(Basic) Certificate - HackerRank ✐
- Website Design Certificate - Udemy
- JavaScript (Basic) Certificate - HackerRank ✐
